Dr. Dawe's Closing Comments

- It is hard for me to believe that graduation is just around the corner and then summer to prepare for the next academic year. The growth in enrollment has been steady which has allowed us to carefully assess faculty and program needs to support our students. There are exciting additional program and course offerings being considered by the appropriate College committees that will be very beneficial to our communities and students once approved.
- The May Board of Trustees meeting will be the official commencement of our long range planning activities. This will play a critical role in helping us properly scope our requirements for the future at all Ozarka locations.
- As summer quickly approaches we'll need to remember that the Miller building roof repairs and our new facility in Mountain View will require a degree of flexibility but we

will do our best to mitigate any disturbances to summer classes and operations of the College.

- The College continues to prepare for the November HLC team visit. I am impressed by the teamwork that has been demonstrated to prepare for this very important assessment. I have no doubt that we will be viewed in a very favorable way when the visit is complete.
